Shooting for a Cure

We are **so excited to be back** and planning the **32nd Annual Face Off with CF Gala** in support of Cystic Fibrosis Canada. Cystic Fibrosis (CF) is the most common fatal genetic disease affecting children and adults in Canada. There is currently no cure for Cystic Fibrosis; we encourage you to please help to change this. With your support, we will raise money to help fund research, advocacy, and support our CF clinics and families in hopes that no family will have to lose a loved one to this horrible disease.

Cystic Fibrosis Canada has supported significant advances in research and patient care over the past 50 years. In 1960, the majority of people with CF did not live to see kindergarten, but today thanks to help from organizations just like yours, we have seen advancements in both treatments and medication, moving the median age of survival to nearly 54 years old.

We are **inviting you to play a crucial role** in our continuing success by supporting our 32nd Annual Face Off with CF Gala as an event sponsor and participant. We are extremely proud to have our **honorary chairs, Ryan & Breanne Nugent-Hopkins of the Edmonton Oilers** back for an 8th year. Ryan and Breanne are very passionate and dedicated to help find a cure for everyone with Cystic Fibrosis.

Please join us for an elegant evening, enjoy a fabulous four-course meal, be entertained by Ryan, Edmonton Oilers players and alumni as they share experiences during the hot-stove session. There will also be the opportunity to bid on live and silent auction items with money raised going towards finding a cure for CF.
